Adam

Hair – Short, brown, slightly spikey

Eyes – brown

Height - About 5'10"

Smart, computer geek Adam tends to be a bit more quiet and insightful, which balances out some of Misty's hyper babbling.

His parents think he spends far too much time playing video games, but of course he disagrees with that. How can anyone spend too much time playing video games?

Its not like he's beaten *all* of them yet.

Adam and Misty have been dating for about a year and work well together. He doesn't mind her yaoi addiction and will even buy her doujinshi.
